

SE 216 – SOFTWARE PROJECT MANAGEMENT

STAKEHOLDERS DOCUMENT

PROJECT NAME: REPLATE

GROUP MEMBERS: Aylin DÖNMEZ, Beyza Makbule YILDIRIM, Eren PAMUK, Hayrūnisa TOPRAK, Hüseyin Alp ERCANDANOĞLU, Hüseyin ESEN, Ramazan YILDIRIM

#	STAKEHOLDER	DESCRIPTION
1	End Users (Citizens)	Individuals who use the application to find, reserve, and collect surplus food. They benefit from affordable food access.
2	Restaurants & Food Businesses	Businesses that report surplus food instead of discarding it. They reduce waste and generate additional revenue.
3	Municipalities	Local authorities managing redistribution centers and monitoring food transfer and social aid operations.
4	Distribution Centers	Locations where uncollected food is transferred and redistributed to users or people in need.
5	People in Need	Individuals benefiting from donation programs supported through municipal systems.
6	Animal Shelters	Organizations receiving donated pet food through the platform.
7	System Administrators	Responsible for managing system operations, data monitoring, and maintenance.
8	Development Team	The team designing, developing, and maintaining the system functionality and infrastructure.
9	Payment Service Providers	External services that may handle secure in-app payment transactions.
10	Government & Regulatory Bodies	Ensure compliance with food safety, data protection, and legal regulations.
11	Data Providers / Map API Services	Services like Google Maps providing location and mapping infrastructure.
